@₹5500

20 slots available for each Hands-On workshop.

INVITATION

Envisioning a surpassing 2021 after a glittering 2019!

The overwhelming support received by all our patrons made it possible to shape the visualized picture into reality and thus SODC-2019 became a distinguished face of eminence in the dermatological world.

After the successful completion of our debutant year conference, SODC-2019 on 21st and 22nd September 2019 graced by more than 400 attendees, SODC is all set to add the next feather in the cap –SODC 2021. This year is going to be the next step up in theory and practice as many more renowned names from the dermatological arena will be associated with us and will lead our way in achieving new milestone of accomplishments through our **futuristic Hands-on value propositioning.**

On behalf of the organizing committee, we take immense pleasure in inviting you to SODC-2021 on 16th & 17th October 2021 at The Taj, Sector-17, Chandigarh. We will be more than delighted to welcome one and all for the upcoming conference- an academic goldmine for the knowledge explorers.

VISION

We understand that until later half of the last century Dermatology was considered as a purely medical specialty in our country whereas our western peers emphasized more on its operational aspect. The emerging trend witnessed by the increasing adoption of new techniques like lasers etc is restricted to the metropolitan and major cities only. SODC targets to groom every individual attending this prestigious conference so that they render their services to each and every corner of the nation so that no patient remains deprived of the deserved treatment.

MISSION

Dermatology being a widespread term which shelters both medical and surgical facets, the practicing dermatologists and the pursuing students do face the challenges of upgrading their skills and knowledge on a daily basis adhering to their busy schedules. SODC simplifies this quandary by mustering in the selected gems in a common forum.

AIM

SODC is endeavoring to make this debut occasion a landmark in the world of dermatological conferences.

What makes SODC

BEST
OF THE
REST

Falls on a weekend-Just two days -

No need to shell out three consecutive days in a row, yet covers up the latest and most important aspects.

Budding dermatologists-The Future of the Nation -

The event to be attended by practicing dermatologists, young minds aspiring to be one among the finest names in the arena of Dermatology and also by the acclaimed legends.

Hands -on live experience to the youth -

No more claims of excellence based only on panel talks and guest lectures.

First event of its own kind to be hosted in Chandigarh –

Enjoy the event in the cleanest city of India with the highest happiness index.

Brings in an unprejudiced and balanced blend -

Of indigenous and exotic speakers of the respective fields.

Great things do come in small packages-

SODC respects sticking to schedules, yet delivering fruitful results by adhering to its belief of comprehensive learning guided by principles of smart work rather than hard-work.

A black and white photograph of a lecture hall with a microphone in the foreground. The word "FACULTY" is overlaid in white text on a dark hexagonal background. The microphone is a large, professional-style microphone with a mesh grille. The background shows rows of seats and a blurred audience, suggesting a classroom or lecture hall setting. The lighting is soft, with some bokeh effects from overhead lights.

FACULTY

Dr. Malavika Kohli
